## PROFILE

Final-year Geomatics Engineering student who completed my studies in October 2026 with hands-on experience in land surveying, spatial data collection, GIS analysis, and CAD drafting using AutoCAD/Civil 3D, QGIS, and ArcGIS. Completed industrial attachments at Mimbula Minerals Limited (mining) and Mulonga Water and Sewerage Company (utilities), supporting survey and infrastructure work in live operational environments.

## EDUCATION

Bachelor of Engineering in Geomatics Engineering
University of Zambia (UNZA)

## WORK EXPERIENCE

Mining Surveyor Intern
Mimbula Minerals Limited
Nov 2025 - Jan 2026

- Assisted with daily pit updates using surpac software.
- Participated in field measurements and pit monitoring with total station.
- Supporting with setting out various structures around the mine.
- Assisted with analyzing drone images using Pix4D.
- Worked alongside multidisciplinary engineering and mining teams.

Engineering Intern
Mulonga Water and Sewerage Company
Nov 2024 - Feb 2025

- Assisted with engineering and surveying activities supporting water and sanitation infrastructure projects.
- Participated in field data collection and site inspections.
- Supported mapping and documentation of utility assets.
- Assisted in preparation of technical reports and project records.
- Worked with engineering teams involved in water distribution and sanitation systems.

## TECHNICAL SKILLS

- Land Surveying
- Engineering Surveying
- GIS and Spatial Analysis
- GPS/GNSS Data Collection
- AutoCAD/Civil3D
- QGIS
- Data Processing and Mapping
- Surpac
